Professional Summary

I am a full-stack web and software developer with over 20 years of professional experience. I specialise in both back-end and front-end development. In particular, the development of object orientated MVC PHP codebases, React and Vue front-end SPAs, and REST APIs.

Software & Language Stack

- PHP 5.6 – 8.5
- PHP Laravel & Zend frameworks
- Object Orientated MVC Programming
- SQL
- Jenkins & Docker CI/CD pipeline development
- React
- Vue
- Vanilla JavaScript & jQuery
- HTML & CSS
- Adobe Photoshop, Illustrator & Figma

Experience

PHP Software Developer

Airbus SE, Bristol (from Dec 2025)

- Maintaining and redeveloping a customised, legacy PHP Zend internal website / intranet.
- Refactoring the PHP Zend Model layer to work with stored procedures.
- Creating REST API endpoints for Airbus fuel and landing gear test assemblies to post and retrieve data to and from the website.
- Developing bespoke PHP Unit integration and unit tests.

Contract Graphic Designer & Project Manager

A-Plates Ltd, Westbury (May 2025 - Dec 2025)

- Project managing the completion of a new website written in Wordpress / WooCommerce.
- Maintaining, managing and designing a large library of print iconography.

Ecommerce Web Developer

Huboo Technologies Ltd, Bristol (Dec 2020 - July 2024)

- Developing, managing and maintaining an ecommerce web-builder front-end component library.
- Developing bespoke JavaScript GUIs and content management systems.

Web Developer

RomanCart Ltd, Bath (Nov 2011 – Dec 2020)

- Designing and developing bespoke ecommerce websites for customers.
- Designing and developing front-end templates for integration with the company's ecommerce systems.
- Developing PHP remote ebay management systems.

Ecommerce Web Designer & Developer

Freelance (Jan 2010 - Nov 2011)

- Designing and developing bespoke ecommerce websites for customers.
- Developing a complete PHP & MySQL online shop software package and content management system as the basis for customer websites.
- Integrating payment gateways.

Lead Web Designer & Developer

JPC InfoNet Ltd, Trowbridge (Feb 2006 - Nov 2011)

- Designing and developing bespoke customer and company websites.
- Developing bespoke Classic ASP & Access database content management systems.
- Integrating payment gateways and developing currency conversion software.
- Ad-hoc graphic design of company and customer printed media.

Web Designer & Front-end Developer

Impress Media Ltd, Warminster (Sep 2003 to Feb 2006)

- Designing and developing bespoke, static customer and company websites.
- Ad-hoc graphic design of company and customer printed media.

Education

- BA(hons) Degree in Visual Communication - 2.1 (University of Central England, 2001)
- Art & Design Foundation National Diploma - Merit (Trowbridge College, 1998)
- 3 A levels - grades A to C (St Laurence School, Bradford on Avon, 1997)
- 9 GCSEs - grades A* to C (St Laurence School, Bradford on Avon, 1995)

Personal

Much of my personal life is involved in live music. I play the guitar in a band. We generally perform once or twice a month. I also periodically organise and run small concerts in my home town. I enjoy running, swimming, playing five-a-side football and skiing.
